

Opportunity – Computer Programmer

Summary

Montgomery Investment Technology, Inc., a leading financial software development and valuation consulting firm, is looking for an experienced developer to help maintain our current product line based on VB/VBA/Access technology including new feature development and technical support. FinTools® Software encompasses an extensive financial function library, employee stock option accounting and financial reporting system, and various derivative securities valuation tools. In addition, developer will have opportunity to participate in the design/development of new web services based around ASP/C#/SQL Server/.NET/Cloud.

MITI is a small and dynamic company, and the developer will be working closely with experts in the financial field in an informal, friendly environment. MITI offers flexible work hours and may consider an opportunity to telecommute. This position offered is full-time or part-time with a telecommuting option.

Primary Responsibilities

- Code, test and troubleshoot programs utilizing the VB, Excel VBA and Access technology
- Confer with users to gain understanding of needed changes or modifications of existing programs
- Resolve questions of program intent, data input and output requirements
- Inclusion of internal checks and controls
- Maintain confidentiality with regard to the information being processed, stored or accessed
- Document programming problems and resolutions for future reference
- Assist personnel of other departments as a computer resource
- Provide technical support to staff and customers
- Perform other duties as assigned in an efficient and timely manner

Knowledge and Skill Requirements

Required

1. Bachelors degree in computer science or equivalent work experience
2. Visual Basic and Visual Basic for Applications (Excel add-ins and templates)
3. SQL Server and mySQL
4. Comfortable with mathematical and financial concepts
5. Ability to be proactive, follow direction and work independently
6. Strong verbal and written communication skills

Preferred

1. C#, ASP.NET, C++
2. Cloud – Azure and AWS
3. HTML, JavaScript, PHP
4. Windows and Network Administration
5. Familiarity with SVN or other CMS

Professional Development Path

- Microsoft certification
- Masters degree or professional certification

Career Opportunity

The vision of Montgomery Investment Technology is succinct: "Bridging Quantitative Finance and the Practitioner using Technology". This is achieved through the development and delivery of state-of-the-art financial tools, valuation consulting services and training seminars.

Montgomery Investment Technology is an equal opportunity employer that offers:

- Competitive salary and performance bonus
- Contribution to comprehensive health plan
- Simple IRA plan
- Casual office environment and flexible work hours

If you are looking for a challenging position with a growing company, Montgomery Investment Technology can provide you with an environment that values and rewards you for your contributions as well as provide ongoing opportunities for personal development. Become part of our dynamic team and help us grow!
